AUTHORITY

Executive Summary

Lorinczi.com has near-zero organic visibility — only 2 ranking keywords in DataForSEO's index ('silver vine bracelet' #16, 'transforming jewelry' #46), no top-10 rankings, and no branded queries surfacing. The backlink profile is alarming: 57.6% of all 170 backlinks come from a single press release anchor, two visible anchors are paid-link-seller spam (SeoBoost.agency, BuySeoLink.com), and 85% of referring domains have rank < 100 — much of it likely auto-generated PBN traffic that Google already discounts. The biggest single-move opportunity: build a content hub around the actual brand differentiator (custom design process + heirloom jewelry redesign) since these have commercial intent, you already have a page ranking #46 to build on, and the entire space is wide open competitively.

Key Metrics

Estimated Traffic	0.67
Ranking Keywords	2
Top 10 Keywords	0
Backlinks	170
Referring Domains	58
Dofollow Pct	85.3

Prioritized Action Plan

Priority	Issue	Recommendation
CRITICAL	Toxic backlink profile (single anchor = 57.6% of links, paid-link-seller spam present)	File a Google Disavow for the rank-0 spammy domains (rankvanceseo.info, anchorurl.cloud, way2check.cv, urls-shortener.eu, shortenurls.eu, etc.) and the unusualengagemententringsmuogose.blogspot.com PBN. Investigate how the SeoBoost.agency / BuySeoLink.com anchors got placed (likely automated comment spam) and consider whether any past SEO vendor purchased these — if so, request removal.
CRITICAL	Near-zero organic visibility (only 2 ranked keywords, no branded queries)	Verify Google Search Console: confirm site is indexed, sitemap submitted, and no manual actions. Check whether 'Lorinczi Jewelry' as a brand query returns the site. The site may have an indexability or trust signal blocking ranking.
HIGH	No content hub for the brand's main differentiator (custom design + heirloom redesign)	Build a pillar page + 5-8 supporting articles around 'custom jewelry design process', 'transform old jewelry into new', 'heirloom diamond reset', 'custom engagement ring journey'. The /pages/transform-your-old-jewelry page already ranks #46 — extending that into a topical cluster is the highest-leverage content move.
HIGH	Missing engagement-ring topical authority (highest commercial intent for a custom jeweler)	Create /collections/engagement-rings as a hub with educational pillars: 'how to choose an engagement ring', 'custom vs ready-made', 'engagement ring styles guide', 'wedding band pairing'. Target high-volume commercial queries the site has zero presence on today.
MEDIUM	Technical SEO crawl could not complete (could not measure)	Re-run technical audit during off-peak hours: <code>~/l.claude/skills/seo/scripts/on_page_audit.py site lorinczi.com --max-pages 100 --no-js`</code> (disable JS rendering for faster queue). Or use Google Search Console + PageSpeed Insights for a manual technical baseline.

Priority	Issue	Recommendation
MEDIUM	Diamond / gemstone education content cluster missing	Build an education hub covering 4 Cs (cut/clarity/color/carat), shapes, lab-grown vs natural, alternative stones (sapphire/emerald/moissanite), ethical sourcing. High informational volume + builds trust + supports conversion on custom orders.

Top Keyword Opportunities

Keyword	Volume	CPC	Difficulty	Position
silver vine bracelet	70	\$0.5	0	16
transforming jewelry	70	\$0.56	0	46
